

**Join us for a Unique Experience to Set a Course for the Future of  
The Floral Park Bellerose School District!**

On Wednesday, October 4, 2023, the Floral Park-Bellerose School District is hosting a unique experience for our community! *The FuturesCoLab event* is a dynamic and interactive community engagement opportunity that will facilitate powerful conversations about how the world is changing, and the implications for our school district and students. The goal of this event is to engage groups within our community to establish a common vision, shared commitments, and momentum around every student's deeper learning experiences.

This will serve as the first meeting of our Strategic Planning Committee. Strategic planning is an organizational activity that is used to set priorities, focus energy and resources, strengthen operations, and ensure that administration, faculty, staff, board members, and stakeholders are all working toward common goals. The plan will include both the academic and operational aspects of our district. Specifically, the Strategic Planning process will answer three big questions:

- Where is our district today?
- Where do we want to be in the future?
- What should we be focused on today in order to get where we want to be tomorrow?

If you are unable to join our committee or commit to future meetings, we still *invite you to engage in this important conversation*. The Floral Park-Bellerose FuturesCoLab will provide a meaningful way to energize and engage our families and community. Through this event, we hope to unify and build community ownership for our district and its vision for the future.

**This is a unique approach to** leverage groundbreaking research on the evolving world and will facilitate powerful dialogue about implications for the future of our district. **This event will take place at the JLCS cafeteria on Wednesday, October 4, from 5 PM to 8 PM.** A light dinner will be served. All are welcome but you must register to attend at the following link: <https://forms.gle/jhZbmmnXr3BEbFcA6>. Or by scanning the below QR code.

Please join us for this unique opportunity to plan for the future of our district!
